Accommodation

Our suggestion to students is to take a Homestay Service with a family for the first 4 weeks and with the option of time extension. The Homestay families are normally registered with a legal accommodation service company and they must satisfy a strict qualification process for hosting students, must be available for random audits and are rated by students. Homestay families offer private or shared furnished rooms with or without meals, internet access, a welcoming, friendly and safe environment and easy access to transportation.

There are also residence services in some Colleges. We provide students with all the required information and contacts so that they may apply directly.
